Our treatment in Chronic Diseases consists of Water Electricity, and the most effective fledicine and Homospathy in all Acute and Febrile The institution is located in a field of 17 acres, containing fine shade trees and pleasant grounds for exer-cise for convalescents. At all other times I can be found at the Electric Water Cure Though we are opposed to publishing certificates to show that we can control diseases supposed to be in-curable, we will re-publish the following letter of a

well-known citizen to the editor of the Republican Banner, of Dec. 30th, 1860: Mr. Editor: Having been afflicted for some months past, as is known by my many acquaintances, with an attack of paralysis, and having received a benefit so decided from the use of electrical baths, given me by Dr. Westervelt. I have thought it due to those sin arly situated with myself, to make this publication.
I was decidedly convalescent when I began to use the
baths, but the benefit derived from them has been so positive that there could be no mistaking the cause I am now able to use my fingers and my arms, which were entirely helpless, almost, if not quite, as well as W., at least with those who place confidence in my word, but to me it is a matter of much greater inpor-tance that my irien is should know where they can be relieved from the state of helplessness I was in a short time since. The world-renowned author, in this admirable Lecture, clearly proves from his own experience that the awful consequences of Seif-abuse may be effectually removed without medicine and without dangerous surgical operations, bougles, instruments, rings or cordials, pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically. TOVE It Requires Less Wood in Baking ian is consumed in kindling fires in ordinary over ad Stoves. ONE CORD OF HARD WOOD

Will be sufficient to cook in it for a family a who year. It cooks in about one half the time ordinarily required, and the heat is regulated with such precision that scarcely any skill or care is necessary to cook with absolute perfection. Means are rossted thorougally with the most desirable uniformity, and come from it to the table joicy and tender. Bread is baked with or without a hard crust, as desired, and will remain fresh and soft much ionger than bread baked in other ovens. Another very important advantage is, that the store when cooking ordinarily gives out so little heat to the surrounding air that it will not kindle friction matches laid upon it, so that is summer it scarcely heats the room at all; but in winter, by opening one of the doors, it will heat the room with about one-burth the weed required by any store in use. TAKE pleasure in announcing to my old friends and customers that after an absence of two years, I have again returned to resume the practice of the PHOTOGRAPHIC ART in all its branches, having portable the process of the PHOTOGRAPHIC ART in all its branches, having portable to the process of the process o chased the interest of my brother in the old established Gallery in Union street, and having spent four months in New York the past Summer to obtain fully all the late improvements in the art. I have painted renovated and enlarged the suite of Rooms throughout That my facilities are now better to produce first-class work than most Galleries can beast of, and con-duce to the comfort of our patrons. I trust not only to sustain the proud position the Gallery has hereto-fore sustained, but to clevate it to a still higher stand-ard. I have also engaged the services of Mr. COOK, one of the best Photographers in the world, who took the Pictures which obtained the first premium at the World's Fair in London, in 1851, and I am determined not only to make this the leading Gallery in the State, but my work shall not be surpassed North or South, and how introduce to the public the following new styles:

Ill who are in want of anything in my line are politely myited to give my a call before visiting elsewhere, when I will prove by occular demonstration the above facts.
